Our unique solution can help

## WHY DO YOU NEED NAPS?

Many state departments are scrutinizing how independent contractors (IC's) are viewed from a classification and insurance standpoint. Staying abreast of legal challenges while navigating troubling classification issues are both time consuming and costly for employers. The benefits of utilizing contractors are starting to be outweighed by the potential liabilities resulting in large monetary damages. Navesink Administration Program Services (NAPS) reduces the regulatory issues that the intermodal motor carriers are facing.

## HOW WILL NAPS HELP YOU?

NAPS assists employers in properly documenting and managing contractor relationships whereby avoiding misclassification of the contractor while ensuring necessary insurance coverage's exist for the contractor to satisfy state insurance requirements . NAPS is a unique solution designed to avoid malicious and direct attacks by state regulatory departments whereby creating a distance relationship between the employer and contractor.

By accessing NAPS program, motor carriers will have low cost insurance options for contractors, reduce regulatory liability and administer DOT qualifications and settlement process.
